

Pranav Srivatsav

A B.Tech. Computer Science student and a passionate programmer with a good grasp on data structures and algorithms. Looking for a role to develop industrial knowledge and learn from experienced team members to enhance my knowledge and skills.

EXPERIENCE

Backend Developer @ CDATS

JANUARY 2021 - MAY 2021

- Led a team of 6 members to deliver competitive web applications
- Worked on an SQL database and PHP based server-side script to add new instruments and respective functionalities in the database and the web-application
- Fixed some major bugs in the website

Mentor and Teaching Assistant @ Coding Ninjas

June 2021 - Present

- Mentored a group of 50+ students who took up a course of Data Structures and Algorithms in Python
- Solved 500+ doubts and debugged codes written by students
- Taught them various DSA topics and cleared their doubts regarding those topics

PROJECTS

Airline Booking Website(Flyver)

A flight booking website built on express and node.js for back-end and HTML/CSS for front-end. Implemented mongoDB for data management and storage.

Link: <https://flyver.herokuapp.com>

Neuro-Evolutionary Dino

A NEAT algorithm based neuro-evolutionary dino controlled by a deep neural network which uses reinforcement learning to evolve over time and generations and learns to avoid the obstacles in its path.
